

DISCLAIMER AND REFERENCES

These notes were written in order to study for the College of Intensive Care Medicine Examination (2011).

The notes have been derived out of model answers made to the short answer questions that have been asked in the JFICM/CICM General Fellowship Examination. They have also been compiled from my own reading around ICU topics.

The abbreviations for texts used in notes are in brackets.

The reference books/resources used in the construction of the notes included:
